EDUCATION

2018 – 2024   **Hacettepe University** - BS, Department of Computer Engineering
GPA: 2.84
2014 – 2018   **Çankaya Anatolian High School**

WORK EXPERIENCE

June 2022   **Algan Group** – Frontend Developer Intern
Aug 2022 – Sep 2022   **İnnova Bilişim –** Software Engineer Intern

SKILLS   **Programming Skills:**   **C++**
Java
JavaScript
Python
Object Oriented Programming
Data Structures
Algorithms
HTML – CSS
Spring
Vue.js
PostgreSQL
Thanks to the lessons I took at school and the projects I did and experiences from internships, I have experiences in developing efficient algorithms for the problem, designing a program with object-oriented programming paradigms and developing a web application.

Taken CS Courses: **Introduction to Programming 1** , **Introduction to Programming 2**
Data Structures , **Algorithms** , **Introduction to Discrete Mathematics**
Logic Design , **Computer Architecture**

Currently Studying Courses: **Programming Languages**
System Programming
Data Management
Image Processing
Management Information Systems

Language Skills: **English (B1)**
I can read documents and research in English.

Certificates: https://github.com/YasinSimsek2000/YasinSimsek2000/tree/main
I had joined a contest and earned a join certificate. The contest was about solving algorithm problems in limited time.
I had earned a Java Programming Language certificate by HackerRank. I had solved given the problems about fundamental programming, object oriented programming design and basic data structures to earn this.

Currently Studying…   Image Processing, Full-Stack Development with Spring and Vue.js

INTERESTS   Following industrial and technological development, joining contests, solving algorithm problems, reading about politics, international relations

CONTEST HISTORY   **INZVA** - Online Programming Contest for Universities 2020
INZVA - Algorithm Competition League #3 2021
GOOGLE - Code Jam 2021
GOOGLE - Hash Code 2021
